

Special Session for Biometrics and Applications

Biometrics is the study of automated methods for identifying humans based upon a physiological or behavioral characteristic. Examples of physiological characteristics include fingerprint, face, retina, iris, hand geometry and voice, while examples of behavioral ones include signature, gait and typing patterns. Biometric applications are routinely deployed and will be increasingly important to many aspects of life and recognized as one of the most promising IT research fields in the impending era of ubiquitous society. Our Special Session for Biometrics and Applications provides the stage for researchers and practitioners to present state-of-the-art and innovative biometrics algorithms, technologies and applications. We suggest the following focus areas for papers:

- New biometric algorithms and technologies
- Face, Iris, Retina, Fingerprint, Hand, Voice
- Signature, Gait, Typing patterns, Multi-modal fusion
- Databases, Standards, Performance evaluation
- Biometric system architecture and design
- Embedded Biometrics, Biometric Applications

Accepted papers will appear in the **IEEE CS Proceedings**, which are indexed by **EI** and **ISTP** and outstanding papers may be published subject to further reviews in the approved FBIT special issues of journals that are indexed by **SCIE**.

Important Dates

- Paper Submission Deadline: **15 June 2007** (click for [LaTeX](#) or [Word](#) style files)
- Notification of Acceptance: **30 June 2007**
- Camera-Ready Version: **10 July 2007**
- Advance Registration Deadline: **1 August 2007**

Submission Method

Authors must submit an electronic copy (in word or pdf) of their complete manuscript directly to the Session Organizer (email: jhy@etri.re.kr or yljb@ctech.ac.kr) before **15 June 2007**.

Organizers:

Dr. Jang-Hee Yoo, ETRI, Korea

Prof. Younglae J. Bae, Chungbuk Provincial Uni. of Science & Technology, Korea

Committee (partial):

Prof. Mark S. Nixon, University of Southampton, UK

Prof. Seong G. Kong, University of Tennessee, USA

Prof. Stan Z. Li, Chinese Academy of Science, China

Dr. Jung Soh, University of Calgary, Canada

Dr. Bong S. Song, Suprema Inc., Korea

Dr. Yun S. Chung, ETRI, Korea

Dr. Kyoung J. Won, UCSD, USA
