June 25-27, 2009, Korea University, Seoul, Korea

to be held in conjunction with The 3rd International Conference on

Information Security and Assurance

<http://www.sersc.org/ISA2009/>

Overview

The workshop will provide an opportunity for academic and industry professionals to discuss the latest issues and progress in the area of NGS. The workshop will publish high quality papers which are closely related to the various theories and practical applications in NGS. In addition, we expect that the workshop and its publications will be a trigger for further related research and technology improvements in this important subject.

Topics (included, but are not limited to)

- Cryptographic Protocol & Application In NGS
- Peer-to-Peer Security & Application
- Privacy & Anonymity in NGS
- Access Control in NGS
- Biometrics in NGS
- Key/Identity Management in NGS
- Smart & Java Cards in NGS
- Mobile Communication in NGS
- Future Aviation in NGS
- Computer Forensics in NGS
- Efficient Implementations in NGS
