# Table of Contents

Cold Chain Logistics Distribution Network Planning Subjected to Cost Constraints

Chang Daofang, Zhu Jinfeng and Lin Danping

Site Directed Mutagenesis, Molecular Cloning and Expression of interleukin-17E to Generate Structural Variant with Enhanced Specific Activity Using Industrial Friendly Salt Inducible *Escherichia coli* GJ1158

Design and Implementation of an Automatic Voltage Regulator with a Great Precision and Proper Hysteresis

Mohammad Shah Alamgir and Sumit Dev

A Review of Value Based Software Engineering and its Impacts

Muhammad Zahid Khan and M. N. A. Khan

A New Plasticity Model for Concrete in Compression Based on Artificial Neural Networks

Lyamine Briki and Kamel Djeghaba

Study of Coated TiN and TiC on Cutting Tools for the PVD and CVD Coated Tungsten Carbide by Sand Blasting Pretreatment of Nickel and Carbon

N. Balasubramanyam, Smt. G. Prasanthi and M. Yugandhar
