Table of Contents

NGSched - An Efficient Scheduling Algorithm Handling Interactive Jobs in Grid Environment 1
Madhuri Bhavsar, S.N.Pradhan

A Genetic Algorithm to Increase the Throughput of the Computational Grids 11
Reza Entezari-Maleki, Ali Movaghar

Dynamic Adaption of Resource Aware Distributed Applications 25
Narkoy Batouma, Jean-Louis Sourrouille

Intelligent Management of Remote Facilities and Quality of Cloud Services 43
T.A.Deepak Kumar, Dr. G. Sumathi

Solving the Permutation Flow Shop Problem with Makespan Criterion using Grids 53
Samia kouki, Mohamed Jemni, Talel Ladhari
