Aims
Multimedia and Ubiquitous Computing is emerging rapidly as an exciting new paradigm to provide computing life services anytime, anywhere. Our Journal provides a chance for academic and industry professionals to discuss recent progress in the area of multimedia and ubiquitous environment including models and systems, new directions, novel applications associated with the utilization, and acceptance of ubiquitous computing devices and systems.

Journal Topics
Topics of relevance include but are not limited to the following areas. Excellent surveying works in these areas are welcome too.

• Multimedia Programming application
• Multimedia Information Security
• Internet application
• Multimedia database
• Home-network applications
• Multimedia software engineering
• Mobile/Wireless Computing &Applications
• Fuzzy neural networks
• Distance education solution
• Neural Network Models and Algorithms
• Learning and Content Management Systems
• Telemedicine system solution
• Middleware Design Techniques
• Data Mining, Knowledge Discovery, Artificial Intelligence
• Industrial Applications of Computer Graphics
• Web-Based Cooperative Work
• e-business and other applications
• Intelligence Service
• Object-Oriented Techniques
• U-business and other applications
• Context awareness Model for Ubiquitous Service
• Ubiquitous Sensor Network / RFID security
• Ubiquitous Multimedia Security (DRM, IPMP)
• Key management and authentication in Ubiquitous Environment
• Network security issues and protocols in Ubiquitous Environment
• Access Control in Ubiquitous Environment
• Security in U-commerce
• Commercial and industrial security
• IPv6, Forensics for Ubiquitous
• Embedded Systems and Infrastructure for Ubiquitous computing
• Use of Embedded Systems for Ubiquitous computing
• Embedded System Architecture
• Hardware/Software Co-design
• Simulation techniques for Embedded Systems
• Multimedia Systems
• Wireless Communication & Networks
• Human-computer interaction and multimedia Embedded Systems
• Modeling issues and case studies
• Industrial IT applications
• Other IT applications

Editors-in-Chief

• Prof. Laurence T. Yang
  Department of Computer Science, St. Francis Xavier University
  Antigonish, NS, B2G 2W5, Canada
  lyang@stfx.ca

• Prof. Seoksoo Kim
  Department of Multimedia, Hannam University
  Ojeong-dong Daedeok-gu, Daejeon, Korea
  sskim@hnu.kr

Co-Editor-in-Chief (Special Issue)

Associate Editors

Embedded Systems
Meikang Qiu
University of New Orleans, USA
Email: qiumeikang@yahoo.com

Communications
Charalampos Z. Patrikakis
National Technical University of Athens, Greece
Email: bpatr@telecom.ntua.gr
