

Table of Contents

***Availability-Based Software Performability Model with
User-Perceived Performance Degradation*** **1**

Koichi Tokuno and Shigeru Yamada

On the Optimization Approach towards Test Suite Minimization **15**

Saeed Parsa and Alireza Khalilian

***Practical Optimal Software Release Decision Making by
Bootstrap Moving-Average Quality Control Chart*** **29**

Mitsuhiro Kimura and Takaji Fujiwara

***Prediction of Fault-prone Modules Using A Text Filtering
Based Metric*** **43**

Osamu Mizuno and Hideaki Hata

***Service Composition System in Consideration of the
Characteristics of Engineering Services*** **53**

Jai-Kyung Lee, Seong-Whan Park, Moohyun Cha,
Seung Hak Kuk, and Hyeon Soo Kim

Software Test Data Generation Based On Multi-Agent **67**

Siwen Yu and Jun Ai
