Table of Contents

A Study on Daylighting Performance Evaluation of Light Shelf based on the Spatial Form of Inclined Ceiling  
Heangwoo Lee, Janghoo Seo and Yongseong Kim  
1

A Framework for Ranking of WSNs Performance Based on Cloud Model and Entropy Weight  
Xiaojun Yu  
15

Development and Research of Digital Campus System Based on Android  
Li Ma, Yu Zhou, KuoLiao, Shen Liu, Jie Qiao, Zhenyu Han and Jin Wang  
25

Research Trends on Graph-Based Text Mining  
Jae-Young Chang and Il-Min Kim  
37

Identifying Key Factors Affecting Information Disclosure Intention in Online Shopping  
Zhiqiang Wang and Yanjun Liu  
47

Evaluation by Residents after Home Modification for the Disabled in Japan  
Seung-eun Lee, Kyeong-hwa Byun and Yun-jeong Lee  
59

Predicting Electricity Consumption Based on Optimized Model of GM(1,1)  
Zhang Zheng, Yang Shanlin, Liu Huizhou and Yu Bengong  
71
A Novel Deployment Algorithm Based on Fluid Dynamics Approach

Ji-Guang Chen and Huan-Yan Qian

A Semiotic Narratological Approach to the Facilitation of Persona Method for Enhancing User Experience

Dong Uk Im, Hak Ro Yoon and Jong Oh Lee

Design and Implementation of Remote Control System for Mobile Platform Based on Interoperation of Android and Arduino

Xu Ri, Liang Jing-Chen, Yang Hao and Teng Jing-Wen

Forecasting of Busy Telephone Traffic Based on Wavelet Transform and ARIMA-LSSVM

Weishan He, Xizhong Qin, Zhenhong Jia, Chun Chang and Chuanling Cao

An Intelligent PSO-based Topology Control Protocol for Wireless Sensor Networks

Arash Nikdel, Mahdi Mosleh and Hagar Noori

Statistical Description and Analysis of the Concurrent Data Transmission from Massive MTC Devices

Xin Jian, Xiaoping Zeng, Jie Huang, Yunjian Jia and Yu Zhou

The Development of a Modular Platform for Convergence Service in Home Network

M. Humayun Kabir, M. Robiul Hoque, Kangji Lee, Chang-Won Park, and Sung-Hyun Yang
The Adoption of Mobile Self-Service Technologies: Effects of Availability in Alternative Media and Trust on the Relative Importance of Perceived Usefulness and Ease of Use

Hee-Dong Yang, Jongkuk Lee, Chulwoo Park and Kangchan Lee
