## Table of Contents

**New Interface Design Using Accelerator Sensor for Smart Phone**  
Young Jae Lee  
1

**Research of Regional Forest Fire Prediction Method based on Multivariate Linear Regression**  
Dan Liu and Yanrong Zhang  
13

**A Clustering Sleep Scheduling Mechanism Based on Sentinel Nodes Monitor for WSN**  
Zhan-Yang Xu, Song-Gang Zhao and Zheng-Jun Jing  
23

**A Study on Performance Evaluation of Mixed Light Shelf Type According to the Angle of Light Shelf**  
Woori Chae, Heangwoo Lee and Yongseong Kim  
33

**A Study of Smartphone Based Disaster Information Reporting System under Disaster Environment**  
Yin Baoquan, Sun Ruizhi and Yang Hongjun  
45

**The Framework of Home Remote Automation System Based on Smartphone**  
Akbar Satria, Muhammad Luthfi Priadi, Lili Ayu Wulandhari and Widodo Budiharto  
53

**Zigbee-based Intelligent Home Furnishing**  
Huang Jinhui, Xue ZiYu, Xu Xu and Tian Siyang  
61
A J2EE based Management Information System for Higher Vocational Colleges 69

Bin Lu, Changyu Liu and Cong Li

An Efficient Electronic Wheelchair Seat Balancing Maintain Methodology Applying Smart Sensors 81

Sanghyun Park, Jinsul Kim and Yonggwan Won

A Hybrid Model for Explaining Older Adult’ Continuance Intention toward SNSs 93

Wei Liu

Multi Camera for Surveillance System Ground Detection and 3D Reconstruction 103

Xu Yongzhe and Byungsoo Lee

A Framework for NFC-based Context-aware Applications 111

Jianchao Luo and Hao Feng

Research on Advanced Control Strategies of Induction Motor System 123

Junmei Zhao, Zhijie Zhang and Yifeng Ren

Context Awareness of Smart Space for Life Safety 135

Younghwan Oh

Kiln Landscape Evolution Simulation Based on Particle Swarm Optimization and Cellular Automata Model 141

Tao Liu, Xuan Xiao and Donglan Ying
Development of 3D Visibility Analysis Models Using NURBS in A Residential Development

ChoongSik Kim, Hoon Ko and KyungJin An

Spatial Analysis of Rural Medical Facilities Using Huff Model: A Case Study of Lankao County, Henan Province

Pengyan Zhang, Xing Ren, Qianqian Zhang, Jianjian He and Yongmin Chen

Study on Emporium Airflow Optimization in View of Cooling Load Distribution Indoor

LV Ziqiang and Liu Yingjie

The Typical Application of Building Energy Consumption Monitoring and Energy Management: A Case Study

Liang Zhao, Ruobing Liang and Jili Zhang

Mobile Social Helping Platform of LBS

Chen Yuefeng, Li Bingquan, Gao sheng and Peng Linxi

Considerations for Web of Object Service Architecture on IoT Environment

NamKyung Lee, HyunWoo Lee and Won Ryu

Moderating Effects of Gender in the Acceptance of Mobile SNS Based on UTAUT Model

Yong Guo
Development of a Smart Home Context-aware Application: A Machine Learning based Approach

M. Humayun Kabir, M. Robiul Hoque and Sung-Hyun Yang

Improved Channel Estimation Algorithms based on a Proposed Signal Model for PUCCH Format 3 in LTE-A

Xiaoping Zeng, Ya Wen, Zhiming Wang and Yuemei Jin
