Editor-in-Chiefs of the IJT Journal

Seungjae Lee,
University of Seoul, Korea

Byungkyu Brian Park,
University of Virginia, USA

Richard Tay,
La Trobe University, Australia

Bart van Arem,
TU Delft, Netherlands

General Information of IJT

Bibliographic Information

- ISSN: 2287-7940
- Publisher: SERSC
  Science & Engineering Research Support Society

Contact Information

Science & Engineering Research Support Society

- Head Office: 20 Virginia Court, Sandy Bay, Tasmania, Australia
- Phone no.: +61-3-9016-9027
- Email: journal@sersc.org

Publication and Update

- Last date of April, August, and December

Submission Guidelines

- Every submitted paper will be carefully reviewed (blind review) by at least three members of the International Program Committee.
- All accepted papers will be published by the web first, and included in the hard copy journal later.
- Authors should submit paper with about 12 pages ~ 18 pages by using online systems for review.

Journal Aims

Our Journal provides a chance for academic and industry professionals to discuss recent progress in the area of Transportation. The merit of this journal is to expedite the review process in order to deliver emerging issues timely.
Journal Topics

The main topics include but will not be limited to the following:

- Transportation Engineering
  - Vehicle Operations and Maintenance
- Highway Engineering
  - Highway Maintenance and Management
  - Highway Geometric Design
- Transportation Planning
  - Land use and transport integration
  - Transportation and socioeconomic development
  - Transportation planning and system optimization
  - Transportation Survey
  - Travel Behaviors
- Traffic Engineering
  - Traffic control and information technology
  - Traffic Control Theories and Methods
  - Traffic Engineering Innovations including Road Design and Behavioral Issues
- Intelligent Transportation Systems (ITS)
  - Transportation Information
    - Traveler Information, In-Vehicle Information Systems
    - Transportation Information Processing Theories and Methods
    - Transportation Information Acquisition Methods
  - ITS theory and applications
- Transport modeling and simulation
  - Transportation Network
    - Network Optimization
    - Modeling and simulation of transportation networks
  - Pedestrian Modeling and Simulation
    - Cellular Automata
    - Forced Based
    - Hybrid Model
- Transportation Management, Economics and Policy
  - Management Leadership
  - Research and Education
- Sustainable Transportation
  - Environmental impact
• Transport & Energy
  o Energy Saving and Alternative Energy

• Transport Safety and security
  o Security and Monitoring Systems
  o Transportation Safety Data Analysis Methods
  o Transportation Safety Models and Evaluation Methods
  o Transportation security, environmental protection, and sustainable development

• Transportation System
  o Transportation System Optimization Models
  o Transportation Systems Detection Technology

• Transportation Infrastructure
  o Transportation Infrastructure (Pavement, Bridge)

• Metropolitan Transportation
  o Urban transport management
  o Urban Traffic Safety and Slow Traffic
  o Public transport systems
    ▪ Urban public transportation planning and management
  o Parking

• Disaster Management
  o Emergency Response Systems and Technologies

• Information Science
  o Remote Sensing
    ▪ Remote Sensor and Sensor Systems
  o Data Mining Theories and Methods
  o Multi Object Tracking
  o Data Fusion Technology
  o Multi-agent system
    ▪ Agent-based simulation/other simulation approaches
  o Geographic Information Systems for Transportation

• Environmentally friendly transport modes
  o Non Motorized Vehicle
  o Pedestrian

• Rail and Transit Systems
  o high-speed railway planning, construction, and operation organization
  o Railway Safety Theory and Technology
  o Safety Considerations in Railway Operation Management

• Air Transportation
o Aviation Safety Theory and Technology
o Safety Considerations in Aviation Operation Management

• Marine and Water Transportation
  o Inland waterway transport

• Logistics
  o Logistic Engineering
    ▪ Managing logistics service quality
  o Supply Chain Management
    ▪ Controlling methods for supply chains
  o Freight Transportation
  o Inter-modal transport systems

Advisory Editors

• David Boyce, Northwestern University, USA
• Avi Ceder, University of Auckland, New Zealand

Managing Editor

• Daehyon Kim, Cheonnam National University, Korea

Editor in North America Region

• Adel Sadek, University at Buffalo, The State University of New York, USA

Editor in European Region

• Constantinos Antoniou, National Technical University of Athens, Greece

Editor in Asian Region

• WY SZETO, The University of Hong Kong, Hong Kong

Editorial Board Members

• Andy H.F. Chow, University College London, UK
• Chong Wei, Beijing Jiaotong University, China
• Brian Lee, Dept of Civil Eng, Queensland University of Technology, Australia
• Chulmin Jun, University of Seoul, Korea
• Daniel(Jian) Sun, Shanghai Jiaotong University, China
• David Jung-Hwi LEE, Georgia Institute of Technology, USA
• Der-Horng Lee, National University of Singapore, Singapore
• Dihua Sun, College of Automation, Chongqing University, China
Ernesto Cipriani, University "Roma Tre", Italy
ESPIÉ Stéphane, IFSTTAR (INRETS/LCPC), France
Francisco Camara Pereira, Singapore-MIT Alliance, USA
Fumitaka Kurauchi, Gifu University, Japan
George Yannis, National Technical University of Athens, Greece
Harry Timmermans, Eindhoven University of Technology, Netherlands
Hwasoo Yeo, Korea Advanced Institute of Science and Technology, Korea
Incheol Yang, Korea Institute of Construction Technology, Korea
Jacek Zak, Poznan University of Technology, Poland
Jan-Dirk Schmöcker, Kyoto University, Japan
Jaume Barceló, Universitat Politècnica de Catalunya, Spain
Jian Lu, Department of Civil and Environmental Engineering, University of South Florida, USA
Jiancheng Long, Hefei University of Technology, China
Jianhua Guo, Southeast University, China
Jin Wang, Liverpool LOOM Research Institute, Liverpool John Moores University, UK
Jing Bie, University of Twente, Netherlands
Jing Zhou, Iowa State University, USA
Jing Zhou, Nanjing University, China
Joyoung Lee, New Jersey Institute of Technology, USA
Jun-Seok Oh, Western Michigan University, USA
Ka-Io Wong, National Chiao Tung University, Taiwan
Kardi Teknomo, Ateneo de Manila University, Philippines
Kenetsu Uchida, Hokkaido University, Japan
Kulilin Zhang, Argonne National Laboratory, USA
Lei Nie, Beijing Jiaotong University, China
Loannis Kaparias, City University London, UK
ManWo Ng Old Dominion University, USA
Marco Guerrieri, University of Enna "Kore", Italy
Matthew G. Karlaftis, NTUA, Greece
Meng Xu, Beijing Jiaotong University, China
Myungsik Do, Hanbat National University, Korea
Nang-Ngai Sze, University of Canterbury, New Zealand
Nate Chancharoenv, Citilabs, USA
Nikolas Geroliminis, École Polytechnique Fédérale de Lausanne, Switzerland
Nobuhiro Uno, Kyoto University, Japan
Oliver Gao, Cornell University, USA
Pam Murray-Tuite, Virginia Tech, USA
Peter Y. Park, University of Saskatchewan, Canada
Raffaele Mauro, University of Trento, Italy
Ruishan Sun, Research Institute of Civil Aviation Safety, Civil Aviation University of China, China
• SC Wong, University of Hong Kong, Hong Kong
• Seock-Jin Hong, Bordeaux Management School, France
• Seungil Lee, University of Seoul, Korea
• Seungmo Kang, Korea University, Korea
• Shinhae Lee, Seoul Institute, Korea
• Shuaian Wang, University of Wollongong, Australia
• Sin C Ho, Aarhus University, Denmark
• Soora Rasouli, Technische Universiteit Eindhoven, Netherlands
• Sorawit Narupiti, Chulalongkorn University, Thailand
• Suh-Wen Chiou, National Dong Hwa University, Taiwan
• Takayoshi Yokota, Tottori University, Japan
• Takuya Maruyama, Kumamoto University, Japan
• Tomer Toledo, Technion - Israel Institute of Technology, Israel
• Vincenzo Punzo, Università di Napoli Federico II, Italy
• Wafaa Saleh, Edinburgh Napier University, UK
• Wei (David) Fan, The University of North Carolina at Charlotte, USA
• Xiaobo Qu, Griffith University, Australia
• Xiaoduan Sun, Department of Civil Engineering, University of Louisiana - Lafayette, USA
• Xiaolei Guo, University of Windsor, Canada
• Xiaoliang Ma, Royal Institute of Technology (KTH), Sweden
• Xu Zhang, Xu Zhang Consultancy & Beijing Jiao Tong University, UK
• Y.E. Ge, Dalian University of Technology, China
• Yannis Tyrinopoulos, Technological Educational Institute of Athens, Greece
• Yingyan Lou, University of Alabama, USA
• Yu Nie, Northwestern University, USA
• Yves Boquet, Université de Bourgogne, France
• Zhi-Chun Li, Huazhong University of Science and Technology, China
• Zhiwei WANG, Nanyang Technological University, Singapore
• Zhiyuan Liu, Monash University, Australia
